The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by either of Japanese publication 5-10700 or Benzick (2,826,135).

Both the Japanese publication (figs. 1-3) and Benzick (figs. 1-4) show structure as claimed, including a lower support member with an air channel therethrough 12,14 respectively, and having subchannels formed along the upper surface of the support member for distributing air therealong. A porous member overlies the support member and interfaces with the subchannel.

Note that the Japanese publication discloses a conventional cover, and Benzick discloses a plurality of porous members (19,20).

Claims 28-47 are allowed.

Note that while only two references were cited in the above rejection, the use of subchannels in a support member for distributing air is also taught by Japanese publications 54-97212 (figs. 3-5), 53-80603 (figs. 2-4) and Liou (5,226,188, figs. 4,5), any of which could also be utilized in rejections under 35USC 102 or 103, and which have been cited by the applicant in an IDS.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
